Index

Index of Subjects

Volume 120, 1985

A23187
and cell killing process, 304
Adenoma
Clara cell, of lung, 455
Adenosine deaminase
deficiency with severe combined immunodeficiency, 157
Adipose tissue
necrosis after virus infections, 173
Adrenal gland
in adenosine-deaminase-deficient severe combined immunodeficiency, 157
lipopolysaccharide uptake in, 79
Alzheimer's disease
and monoclonal antibodies to neurofibrillary tangles, 282, 292
Amino acids
effects on kidney, 436
Amiodarone
lung cell injury from, 344
Amyloid deposits
in glomerulonephritis with visceral leishmaniasis, 256
Animal Models of Human Disease
dermatomyositis, 323
malignant fibroma syndrome in rabbits, 170
scleroderma in chickens, 478
Aorta
fibrolipid lesions, 193
fibronectin fragments inhibiting endothelial cell growth, 327
Arachidonic acid
and cell killing by calcium, 304
production in stimulated neutrophils, 112
Ascorbic acid
and myeloperoxidase inhibition in eye, 244

Bacteria
aggregation with matrix proteins, 13
Bile ductules
cell cultures, 67
Bladder
cytokeratin in BBN-induced tumors, 419
Brain
monoclonal antibodies to Alzheimer neurofibrillary tangles, 282, 292
Breast
endocrine cells in, 186

Calcium
and cell killing process, 304
Carcinoma
of bladder, after BBN, cytokeratin in, 419
of breast, endocrine cells in, 186
embryonal, testicular, 402
Cartilage
in adenosine-deaminase-deficient severe combined immunodeficiency, 157
chondroclasts in tibial dyschondroplasia, 276
Ceruloplasmin
activity in turpentine pleurisy, 146
Chlorogenic acid
mitogenic for arterial smooth-muscle cells, 1
Cholesteryl ester
in macrophages, lipoprotein-proteoglycan complexes affecting, 6
Choriocarcinoma
testicular, 402
Chromogranin
breast cells reactive to, 186
Clara cells
in adenomas of lung, 455
Collagen
Type IV, binding to bacteria, 13
Complement
component activities in turpentine pleurisy, 146
Cornea
macrophage-induced neovascularization, 87
C-reactive protein
activity in turpentine pleurisy, 146
Cytokeratin
in bladder cancer induced by BBN, 419
in glomerular crescent cells, 222
in testicular germ-cell tumors, 402

Dermatomyositis
animal model of, 323
Desmin
in testicular germ-cell tumors, 402
Diabetes mellitus
and liver perisinusoidal fibrosis in BB rats, 38
DNA
hepatitis B virus, in liver sections, 411
Dyschondroplasia
tibial, chondroclasts in, 276

Electron microscopy
microwave energy fixation for, 230
Ellagic acid
mitogenic for arterial smooth-muscle cells, 1
Emphysema
neutrophil role in, 22
Endocrine cells
in breast, 186
Endodermal sinus tumor
testicular, 402
Endothelial cells
growth inhibited by fibronectin fragments, 327
pulmonary, injury from amiodarone, 344
Eosinophils
attack on schistosomula, 380
Epithelial cells
glomerular, and mesangial cell proliferation, 427
thyroid, HLA-DR antigens detected in, 106
Eye
macrophage-induced neovascularization in, 87

myeloperoxidase inhibition in, 244

Fat
necrosis after virus infections, 173
Fibrolipid lesions
aortic, 193
Fibroma
malignant, in rabbits, 170
Fibromatosis
subcutaneous, in simian AIDS, 30
Fibronectin
binding to bacteria, 13
fragments inhibiting endothelial cell growth, 327
Fibrosis
perisinusoidal, in liver of BB rats, 38
Foam cells
in granulomas, 391

Graft-versus-host disease
liver in, 316
Granulomas
and lipids in macrophages, 391

Heart
reperfusion affecting, 129
Heparin
and mesangial cell proliferation in glomerular injury, 248, 427
and neovascularization, 327
Hepatitis B virus
DNA in liver sections, 411
Histiocytoma
malignant fibrous, 207
Histocompatibility antigens
Class II MHC molecules, 335
HLA-DR antigens in thyroid tissue, 106
HLA-DR antigens
in thyroid tissue, 106
Hodgkin's disease
and lymphocyte compartments in spleen, 443

Immunodeficiency
acquired
non-T cells in, 371
possible animal model for, 170
simian, subcutaneous fibromatosis in, 30
severe combined
in adenosine deaminase deficiency, 157
in mouse, 464
Immunoglobulins
gene analysis in null-cell lymphomas, 356
in glomerulonephritis with visceral leishmaniasis, 256
Intermediate filaments
in bladder cancer induced by BBN, 419
cytokeratin in glomerular crescent cells, 222
in lymphomas, 351
in testicular germ-cell tumors, 402
Ischemia
and cell killing by calcium, 304
and reperfusion affecting heart, 129

Kidney
in adenosine-deaminase–deficient severe combined immunodeficiency, 157
changes in visceral leishmaniasis, 256
cytokeratin in glomerular crescent cells, 222
heparin inhibition of mesangial cell proliferation, 248, 427
lysine affecting, 436
medullary thick ascending limb in hypothyroidism, 215
membrane attack complex in glomerular disease models, 121
Laminin
binding to bacteria, 13
Leishmaniasis
visceral, renal changes in, 256
Lipid
aortic fibrolipid lesions, 193
in granuloma macrophages, 391
Lipopolysaccharide
adrenal uptake of, 79
Lipoprotein
in complexes with proteoglycans, uptake by macrophages, 6
Liver
bile ductular cell cultures, 67
in graft-versus-host disease, 316
hepatitis B virus DNA, 411
perisinusoidal fibrosis in BB rats, 38
Lung
cell injury from amiodarone, 344
Clara cell adenomas of, 455
neutrophil role in emphysema, 22
spontaneous pulmonary vasculitis in NZB/W mice, 88
Lymph nodes
in cutaneous T-cell lymphomas, 46
in dermatopathic lymphadenopathy, 179
paracortical T-nodules, 55
in severe combined immunodeficiency in mice, 464
Lymphocytes
compartments in spleen, 443
monoclonal antibodies to. *See* Monoclonal antibodies, to lymphoid cells
non-T cells in AIDS patients, 371
stimulation with mitogens and antigens, 263
T cells in severe combined immunodeficiency in mice, 464
Lymphomas
cutaneous T-cell, lymph nodes in, 46
null-cell, 356
in severe combined immunodeficiency in mice, 464
vimentin in, 351
Lysine
effects on kidney, 436

Macrophages
lipid composition in granulomas, 391
and neovascularization in cornea, 87
uptake of lipoprotein–proteoglycan complexes, 6
Mesangial cells
proliferation inhibited by heparin, 248, 427
Microwave energy
for fixation in electron microscopy, 230
Monoclonal antibodies
to Alzheimer neurofibrillary tangles, 282, 292
to chromogranin in breast tissue, 186
to cytokeratin in glomerular crescents, 222
to histocompatibility antigens in thyroid tissue, 106
to intermediate filament proteins
in lymphomas, 351
in testicular germ-cell tumors, 402
to lymphoid cells
in AIDS patients, 371
in cutaneous T-cell lymphomas, 46
in dermatopathic lymphadenopathy, 179
in liver damage from graft-versus-host disease, 316
in null-cell lymphomas, 356
in paracortical T-nodules, 55
in spleens, 443
Mycosis fungoides
lymph nodes in, 46, 179

Myeloperoxidase
inhibition in eye, 244

Necrosis
fat, after virus infections, 173
Neoplasia
Clara cell adenomas of lung, 455
cytokeratin in experimental bladder cancer, 419
and endocrine cells in breast, 186
fibrous histiocytoma, malignant, 207
lymph nodes in cutaneous T-cell lymphomas, 46
malignant rabbit fibroma syndrome, 170
null-cell lymphomas, 356
in severe combined immunodeficiency in mice, 464
subcutaneous fibromatosis with simian AIDS, 30
testicular germ-cell tumors, 402
vimentin in lymphomas, 351
Neovascularization
corneal, macrophage-induced, 87
heparin affecting, 327
Neurofibrillary tangles
monoclonal antibodies to, 282, 292
Neutrophils
activation of, and arachidonate production, 112
and neovascularization in cornea, 87
role in emphysema, 22

Phagocytes
in liver, in graft-versus-host disease, 316
Pleurisy
turpentine, acute phase reactants in, 146
Polyphenols
tobacco, mitogenic for arterial smooth-muscle cells, 1
Protein
cell matrix, binding to bacteria, 13
C-reactive, in turpentine pleurisy, 146
Proteoglycans
in complexes with lipoprotein, uptake by macrophages, 6

Quercetin
mitogenic for arterial smooth-muscle cells, 1

Rutin
mitogenic for arterial smooth-muscle cells, 1

Sarcoma
implant-induced, in rats, 207
Schistosomula
damage from eosinophils, 380
Scleroderma
avian, 478
Seminoma
intermediate filaments in, 402
Sézary syndrome
lymph nodes in, 46
Smoking
and tobacco constituents mitogenic for arterial smooth-muscle cells, 1
Sodium
and cell killing by calcium 304
Spleen
lymphocyte compartments in, 443
in severe combined immunodeficiency in mice, 464

Testis
germ-cell tumors of, 401
Thymus
in severe combined immunodeficiency in mice, 464
Thyroid
HLA-DR antigens in, 106
renal thick ascending limb in hypothyroidism, 215
Tobacco
constituents mitogenic for arterial smooth-muscle cells, 1
Tumors. *See* Neoplasia

Vasculature
aortic fibrolipid lesions, 193
fibronectin fragments inhibiting endothelial cell growth, 327
macrophage-induced corneal neovascularization, 87
pulmonary vasculitis in NZB/W mice, 88
tobacco constituents mitogenic for arterial smooth-muscle cells, 1
Vimentin
in lymphomas, 351
in testicular germ-cell tumors, 402
Viruses
fat necrosis after sequential infections, 173
hepatitis B DNA in liver sections, 411
